

PRINTCOAT

Pre-finished steel colour coatings
for roofing and cladding

Made for design, **built to last.**

T/ PRINTCOAT

The Thomas PRINTCOAT range offers pre-finished steel with authentic metal-effect finishes, delivering the look of Zinc, Copper, Rust and Patina without the weight or cost.

Engineered for UK conditions, the coating provides exceptional resistance to UV, corrosion and everyday wear. Sheets are supplied cut to length for efficient installation, with finishes fully compatible

across our roofing, cladding and flashing systems. A reliable solution for achieving the right architectural aesthetic with lasting performance.

PRINTCOAT COATING FINISHES

PC211: RUST

A distinctive weathered-steel appearance that combines industrial character with low-maintenance durability.

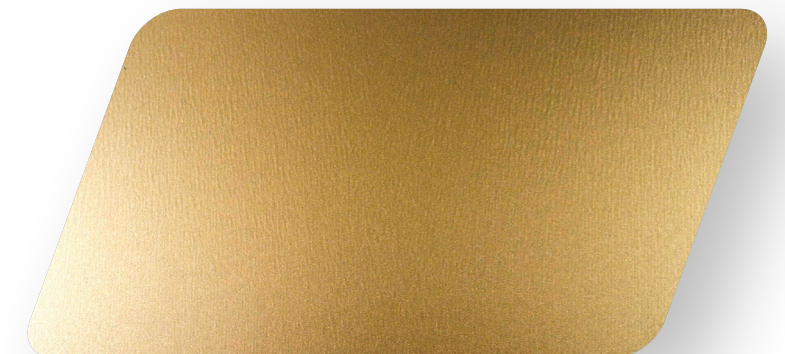

PZ901: NEW ZINC

A clean, contemporary finish that develops subtle tonal variation, ideal for modern industrial and architectural projects.

S0250A: PURE COPPER

A warm metallic tone that brings richness and visual depth, echoing the look of traditional copper over time.

PC21C: PATINA COPPER

A unique aged-metal effect offering a softer, timeworn aesthetic suited to heritage or design-led buildings.

COMPLETE STEEL BUILDING SOLUTIONS.

At Thomas Panels and Profiles, we supply everything you need to complete a steel-framed building.

From roof profiles and purlins to flashings, gutters and fixings, we deliver complete systems in one load, ready to install.

Over 30 years of experience has shaped how we **make, supply and support every product we deliver.**

PERFORMANCE & DURABILITY

Print Coat is engineered for long-term protection and consistent appearance in all conditions. The multi-layer coating system offers high resistance to UV, corrosion and scratching, maintaining its finish even in exposed environments. It's a proven solution for projects that demand lasting performance with minimal maintenance.

APPLICATIONS & VERSATILITY

Suitable for both new-build and refurbishment projects, Print Coat is ideal for roofing, wall cladding and architectural detailing. Its realistic metal effects allow designers to achieve premium aesthetics without the complexity or cost of natural metals.

WHY CHOOSE PRINT COAT

Every Print Coat sheet is produced to order, allowing flexibility across a wide range of project requirements. Each finish is delivered with the same care, precision and attention to detail our customers rely on across all Thomas Panels & Profiles products. A bespoke approach that ensures consistency, efficiency and quality on every project.
